

VICI meeting, 07 June 2009

Present: Catholijn, Koen, Wietske, Willem-Paul, Dmytro.

Absent: Joost, Alina, Pascal.

Catholijn:

1. Some progress have been made on DUO models by Catholijn, Pascal and Alina. The models are sent to Joost. Then Dmytro with Catholijn, Koen will have a look again to check the correctness of UML notations.
2. Dmytro presented Genius architecture during one of the VICI meetings. A wish list was made (see notes of the previous VICI meetings). Wouter should join the discussion at some point.
3. A wish list for every individual project was discussed in previous VICI meeting (see notes of the previous VICI meetings)

Wietske:

4. In the house scenario it is decided to use PN once a house is selected by the buyer. In such a case the negotiation domain is rather small (4-5 issues). Catholijn -> lets start with modelling of the scenario (Wietske will take care of the organization).

Catholijn:

5. Seem like everybody has own understanding of the use cases. We should proceed with developing of the use cases during the next VICI meeting.

Next VICI meeting:

25 Aug 2009.
